

Computing in Early Years

Early years children come into the computer suite every Friday afternoon. They are learning to use the mouse and keyboard, and navigate sites.

What I like about computing

We can all type our names and put our passwords into Purple Mash.

I like playing on the music making apps. I can plug the headphones into the hole on the computer and put them on my head.

What I would like to learn

Vocabulary I have learned.

Mouse, keyboard, arrows, letters, Purple Mash, password.

I can find my way round Purple Mash by clicking on the buttons.

I would like to learn how to make a maze game.

I like painting pictures on the computer. I can change the colour of my pens.
